

FORMULA ONE – LIVE DATA AND LIVE ODDS

Start your engines

Put your sportsbook in pole position for the start of Formula 1 with Betradar's live 'in-race' betting offering

With the 2022 Formula 1 season nearly upon us, now is the perfect time to integrate Betradar's ground-breaking 'in-race' betting product into your sportsbook.

Combining unreleased historical data with data taken directly from the track, Betradar provides F1 Live Odds customers with more than 20 in-race markets for both individual drivers and teams.

For F1 Live Data customers, Betradar delivers official F1 statistics such as driver and standings information, enhanced weather updates and live track data.

Integrate F1 live 'in-race' betting now and provide your customers with an all-new way to engage with one of the leading forms of racing.

Product features

1x2

Unique Live Data and Live Odds available for every round - practice, qualifying and the main race!

Live odds models built using never before released historical F1 data, plus data straight from the track – the fastest in the industry

Existing pre-race models - driver markets (winner, podium and top ten finishes), constructor markets, group winners, drivers to be classified, race head-to-heads and qualifying head-to-heads

Live visualisation with our Live Match Tracker bringing the race action closer to your punters

Unique live visualisation

F1 Live Match Tracker displays the real-time driver position on track as well as a detailed overview of all important live race events, driver specific information (points, current and fastest lap times, number of pit stops) and head-to-head tracking. Additionally, users are able to see the current standings for both drivers and constructors accompanied by their respective points totals.

Live Data collection

Enhanced weather information	Track status	Fastest standings information	Enhanced driver information
Air and track temperature	Lap count	Current position	Driver name with racing number
