

## Gaming Solutions - Basketball

Realistic virtual sports, built for betting

# Virtual Basketball

A popular solution, proven to add incremental revenue

This multi-channel product offers an infinite number of matches in a real-like league competition that comes coupled with all popular betting markets.

The result is a solution that is proving to be popular worldwide. Virtual Basketball incorporates the latest Motion Capture technology mixed with Betradar's unique access to real sports data.

## + Product Highlights

- + Betting mechanics as found in any real basketball league
- + Limitless super-fast betting on both singles and multiples
- + Realistic game-play based on the analysis of 480,000 real basketball events
- + Deep statistical analysis available for every match

## + Product Features

-  3,300 additional fixtures per day
-  Availability for Retail, Online and Mobile
-  Attractive for all types of punters
-  8 matches always in parallel

# Built for betting from the ground up

From its very conceptualisation all the way to its final delivery, Virtual Basketball has benefited from Betradar's expertise as the market-leading supplier of the world's leading bookmakers. Our Virtual Basketball solution has been designed so that it can offer punters, from all kinds of target groups, an experience that is as close as possible to traditional online real-basketball betting.

With new betting cycles offered every 3,5 minutes punters can place bets anytime. This fast-paced rolling system ensures that Virtual Basketball can offer a much quicker betting frequency than real basketball. Our latest solution includes the most-popular basketball markets based on Betradar's pre-match odds feed via a unique league system where all odds can be combined across matches to create multiple bets.
